PTO Recruitment Invitation

Education is a journey that families and schools embark on together. To build a "home-school community" and create a warmer, more nurturing environment for our children, the PTO sincerely invites you to join us!

The PTO serves as a core bridge between home and school, providing a platform for parents to participate in school management and support educational activities. As a PTO member, you will:

- Participate deeply in decision-making, joining "Principal Meet & Greet" sessions to share your insights directly.
- Represent the school at important off-campus events.

At the same time, you will be expected to fulfill the following responsibilities:

- Attend meetings on time to discuss collaboration.
- Serve as a communication link between home and school.
- Support school activities and help create wonderful campus memories.

If you are passionate about education, skilled in communication, and willing to contribute, we warmly welcome you! Please contact your homeroom teacher to sign up by Friday, September 4.

Let's work together to shape a brighter future for our children!

Flag-Raising Ceremony and Opening Ceremony

On Tuesday, September 1st, all students of Aihua School will hold a flag-raising ceremony and the opening ceremony of the main campus of Aihua School in the large playground. The ceremony will honor the "Five-Aspirations Aihua Student" of the 2025-2026 academic year.

MAP® Testing

As part of the LifePlus network of schools, YIA is conducting the Measures of Academic Progress (MAP) tests as a form of standardized testing from Tuesday, September 8, to Thursday, September 24. The MAP test is designed for students from HS-pre to 10th

Grade. Different grades will test at different times. Students take the MAP test in the fall, winter, and spring each school year.

MAP tests determine your child's instructional level and measure academic growth, both throughout the school year and from year to year, in the areas of Math, Language, Reading, and Science. MAP tests are unique in that they are adaptive tests. That means that the test becomes more difficult with the more questions your child answers correctly. When your child incorrectly answers a question, the test becomes easier. Therefore, your child will take a test specifically catered to his or her learning level.

Since MAP Growth tests provide immediate and accurate information about your child's learning, teachers use this information to identify students with similar scores that are generally ready for instruction in similar skills and topics. They then plan their instruction accordingly so that students learn optimally.

There is no additional studying that students need to put in for this test. Rather, the test serves as an assessment tool for where a student's levels are currently. The school is excited to focus on your child's individual growth and achievement.

High School Student Council Retreat

A High School Student Council Retreat Students who have been elected into the Student Council will join for a retreat to plan events and participate in team-building activities. The retreat will be held from September 3rd to 4th. Permission forms with a detailed schedule will be distributed to the StuCo members. Please contact Ms.Carpenter stephanie.carpenter@yia-china.com if you have any questions.

Fall Camp

Golden autumn is here, and we hope students can immerse themselves in nature to relax and recharge for the new semester. We also aim to enhance team cohesion through the autumn camp, fostering a supportive and friendly family atmosphere. To achieve this, we will organize an off-campus autumn camp on September 23 and 24. More details will be announced soon.
