School-wide News

Special Assembly: Insights from a Legend

We are honored to welcome Olympic Champion Ma Yanhong—the first Chinese gymnast to win gold at both the World Championships and Olympic Games—for an exclusive assembly with our students.

In this special interview-style event, Mr. Miller will guide a conversation exploring Champion Ma's journey of discovering purpose through discipline, overcoming failure, and achieving extraordinary success. The session will be conducted in Chinese with English translation provided.

All students will gather in the Large Auditorium on Friday, May 16 from 11:45 AM to 12:30 PM. This is a unique opportunity to gain wisdom from a true sporting legend. Let's give Champion Ma a warm welcome as she shares her inspiring story with our community.

Interested parents are welcome to attend but must **RSVP** by Wednesday, May 14. Please note that photography and videography will be strictly prohibited to ensure a distraction-free environment for our guest and students.

Insights from Legend: Champion Ma Yanhong

Ms. Ma Yanhong is the first Chinese gymnast to win gold medals at both the World Gymnastics Championships and the Olympic Games.

Upper Elementary:

- 1st place: Ieun C. – Grade 4
- 2nd place: Emanuel L. – Grade 3
- 3rd place: LeeOn K. – Grade 3

Middle School:

- 1st place: JiMin Y. – Grade 8
- 2nd place: Xiaohan G. – Grade 8
- 3rd place: MeiXi J. – Grade 6

High School:

- 1st place: Eugene L. – Grade 11
- 2nd place: SiWoo C. – Grade 11
- 3rd place: Jenna B. – Grade 12

MAP® Testing

As part of the LifePlus network of schools, YIA is conducting the Measures of Academic Progress (MAP) tests as a form of standardized testing from Monday, April 21 – Friday, May 23. The MAP test is for students from kindergarten to 10th Grade. Students will be tested in the fall, winter, and spring of each school year. The test will be administered on school computers or iPads.

MAP tests determine your child's instructional level and measure academic growth, both throughout the school year and from year to year, in the areas of Math, Language, Reading, and Science. MAP tests are unique in that they are adaptive tests. That means that the test becomes more difficult with the more questions your child answers correctly. When your child incorrectly answers a question, the test becomes easier. Therefore, your child will take a test specifically catered to his or her learning level.

Since MAP Growth tests provide immediate and accurate information about your child's learning, teachers use this information to identify students with similar scores that are generally ready for instruction in similar skills and topics. They then plan their instruction accordingly so that students learn optimally.

There is no additional studying that students need to put in for this test. Rather, the test serves as an assessment tool for where a student's levels are currently. The school is excited to focus on your child's individual growth and achievement.
